

**Joint Venture between Snowball and Soul Pattinson:
Souls Financial Solutions Pty Ltd**

Snowball Group Limited is pleased to announce it has completed arrangements with Washington H Soul Pattinson and Company Limited (ASX:SOL) regarding the establishment of a joint venture entity to be known as Souls Financial Solutions Pty Limited (SFS).

Agreements have also been finalised with the Trustee of the WHSP Superannuation Fund under which SFS will advise the Trustee on how best to promote the Fund and assist its members.

In particular, SFS will provide comprehensive education and advice programs encompassing:

- Member education services including regular newsletters, updates on regulatory changes and website seminars (webinars);
- Work site seminars;
- Welcome calls for new members;
- Insurance & superannuation reviews.

The joint venture partners are confident that SFS will provide valuable benefits through its range of member services and that the availability of those services will help to grow the WHSP Superannuation Fund by attracting new members and employer groups both within the WHSP family of companies and beyond.

Commenting on the completion of the arrangements, Snowball's Managing Director Tony McDonald said "It is increasingly evident that education and cost effective, accessible financial advice are critical service elements for superannuation funds."

"We are delighted that Washington H Soul Pattinson wish to work with us to provide these services to their super fund" he said.
